REPORT OF MANAGEMENT

Management of Vinhomes Joint Stock Company ("the Company") is pleased to present this report and the interim consolidated financial statements of the Company and its subsidiaries for the six-month period ended 30 June 2023.

MANAGEMENT'S RESPONSIBILITY IN RESPECT OF THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Management is responsible for the interim consolidated financial statements of each financial period which give a true and fair view of the interim consolidated financial position of the Company and its subsidiaries and of the interim consolidated results of its operations and its interim consolidated cash flows for the period. In preparing those interim consolidated financial statements, management is required to:

- ▶ select suitable accounting policies and then apply them consistently;
- ▶ make judgements and estimates that are reasonable and prudent;
- ▶ state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the interim consolidated financial statements; and
- ▶ prepare the interim consolidated financial statements on the going concern basis unless it is inappropriate to presume that the Company and its subsidiaries will continue its business.

Management is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the interim consolidated financial position of the Company and its subsidiaries and to ensure that the accounting records comply with the applied accounting system. It is also responsible for safeguarding the assets of the Company and its subsidiaries and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Management confirmed that it has complied with the above requirements in preparing the accompanying interim consolidated financial statements.

STATEMENT BY MANAGEMENT

Management does hereby state that, in its opinion, the accompanying interim consolidated financial statements give a true and fair view of the interim consolidated financial position of the Company and its subsidiaries as at 30 June 2023 and of the interim consolidated results of its operations and its interim consolidated cash flows for the six-month period then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to the preparation and presentation of the interim consolidated financial statements.

For and on behalf of management:

Nguyen Thu Hang
Chief Executive Officer

REPORT ON REVIEW OF INTERIM CONSOLIDATED FINANCIAL STATEMENTS

To: The Shareholders of Vinhomes Joint Stock Company

We have reviewed the accompanying interim consolidated financial statements of Vinhomes Joint Stock Company ("the Company") and its subsidiaries (collectively referred to as "the Company and its subsidiaries") as prepared on 29 August 2023 and set out on pages 6 to 96, which comprise the interim consolidated balance sheet as at 30 June 2023, the interim consolidated income statement, the interim consolidated cash flow statement for the six-month period then ended, the notes thereto.

Management's responsibility

The Company's management is responsible for the preparation and fair presentation of the interim consolidated financial statements in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to the preparation and presentation of the interim consolidated financial statements, and for such internal control as management determines is necessary to enable the preparation and presentation of the interim consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express a conclusion on the interim consolidated financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements No. 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim consolidated financial statements do not give a true and fair view, in all material respects, of the interim consolidated financial position of the Company and its subsidiaries as at 30 June 2023, and of the interim consolidated results of its operations and its interim consolidated cash flows for the six-month period then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to the preparation and presentation of the interim consolidated financial statements.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
as at 30 June 2023 and for the six-month period then ended

1. CORPORATE INFORMATION

Vinhomes Joint Stock Company ("the Company") is a joint stock company incorporated under the Law on Enterprise of Vietnam pursuant to the Business Registration Certificate No. 0103022741 issued by the Hanoi Department of Planning and Investment on 6 March 2008 and the Enterprise Registration Certificate No. 0102671977 dated 5 August 2010 on registration of a shareholding company. The Company also subsequently received amended Enterprise Registration Certificates with the 35th amendment dated 18 May 2022 as the latest.

The current principal activities of the Company are to develop real estate property for sale, provide leasing of offices, render real estate management and related services, provide general contractor services, consulting and designing construction services, supervision and construction management services.

The Company's head office is located at Symphony Office Tower, Chu Huy Man Street, Vinhomes Riverside Eco-Urban Area, Phuc Loi Ward, Long Bien District, Hanoi, Vietnam.

Vingroup JSC is the parent company of the Company. Vingroup JSC and its subsidiaries are hereby collectively referred to as "the Group".

The Company and its subsidiaries' normal course of business cycle of real estate development activity begins when the Company receives investment certificate, carries out land clearance and construction work until the time of project completion and handover to customers. Accordingly, the normal course of business cycle of real estate development activity may be longer than 12 months.

The Company and its subsidiaries' normal course of business cycle of other activities is normally within 12 months.

The number of the Company's employees as at 30 June 2023: 8,898 (31 December 2022: 9,689).

Seasonality of interim consolidated operations

Due to the nature of real estate business, revenue from rental income and rendering real estate management services are expected to be stable throughout the period except when the Company and its subsidiaries launch new properties into the market. On the other hand, revenue from sale of residential properties is dependent on the completion status of real estate projects and the market conditions at the time these projects are offered for sale; and revenue from rendering general contractor, construction consultancy and supervision services is dependent on the percentage of completion of projects.

Corporate structure

As at 30 June 2023, the Company has 36 subsidiaries (as at 31 December 2022: 33 subsidiaries). The information on these subsidiaries and their short names, along with the Company's direct and indirect voting rights and direct and indirect equity interest in each subsidiary are detailed in the Appendix 1.

2. BASIS OF PREPARATION

2.1 Accounting standards and system

The interim consolidated financial statements of the Company and its subsidiaries, which are expressed in Vietnam dong ("VND"), are prepared in accordance with Vietnamese Enterprise Accounting System, Vietnamese Accounting Standard No. 27 - Interim Financial Reporting and other Vietnamese Accounting Standards issued by the Ministry of Finance as per:

- ▶ Decision No. 149/2001/QD-BTC dated 31 December 2001 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 1);
- ▶ Decision No. 165/2002/QD-BTC dated 31 December 2002 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 2);
- ▶ Decision No. 234/2003/QD-BTC dated 30 December 2003 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 3);
- ▶ Decision No. 12/2005/QD-BTC dated 15 February 2005 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 4); and
- ▶ Decision No. 100/2005/QD-BTC dated 28 December 2005 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 5).

Accordingly, the accompanying interim consolidated financial statements, including their utilisation are not designed for those who are not informed about Vietnam's accounting principles, procedures and practices and furthermore are not intended to present the interim consolidated financial position and interim consolidated results of operations and interim consolidated cash flows in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

2.2 Applied accounting documentation system

The Company and its subsidiaries applied accounting documentation system is the General Journal.

2.3 Fiscal year

The Company and its subsidiaries' fiscal year applicable for the preparation of its consolidated financial statements starts on 1 January and ends on 31 December.

2.4 Accounting currency

The interim consolidated financial statements are prepared in VND which is also the Company and its subsidiaries' accounting currency. For the purpose of presenting the interim consolidated financial statements as at 30 June 2023, the figures are rounded to the nearest millions and presented in millions of Vietnam dong ("million VND").

2. BASIS OF PREPARATION (continued)

2.5 Basis of consolidation

The interim consolidated financial statements comprise the interim financial statements of the Company and its subsidiaries for the six-month period ended 30 June 2023.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Company obtains control, and continued to be consolidated until such control ceases, except when the Company only obtains temporary control and the subsidiary is acquired with a view of resale within 12 months from acquisition.

The interim financial statements of subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies.

All intra-company balances, income and expenses and unrealised gains or losses resulting from intra-company transactions are eliminated in full.

Non-controlling interests represent the portion of profit or loss and net assets of subsidiaries not held by the Company and are presented separately in the interim consolidated income statement and within equity in the interim consolidated balance sheet.

Impact of change in the ownership interest of a subsidiary, without a loss of control, is recorded in undistributed earnings.

In case the Company disposes a partial interest in a subsidiary and loses control but retains an interest as an associate, the Company's investment is accounted for using the equity method of accounting. Profit/loss from this transaction is recognised in the interim consolidated income statement.

Gains resulting from contribution of non-monetary asset or sales of asset to associate or joint-ventures are recognized in the consolidated income statement only to the extent of unrelated interest in the associate or joint-venture. Unrealised profits related to interest by the Company and its subsidiaries are realised to the interim consolidated income statement according to the progress of asset recovery in the financial statements of these associates or joint-ventures.

In case the Company disposes a partial interest in a subsidiary and loses control but retains an interest as an investment in other entities, the Company's investment is accounted for using the cost method. Profit/loss from this transaction is recognised in the interim consolidated income statement.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 *Changes in accounting policies and disclosures*

The accounting policies adopted by the Company and its subsidiaries in preparation of the interim consolidated financial statements are consistent with those followed in the preparation of the Company and its subsidiaries' consolidated financial statements for the year ended 31 December 2022 and the interim consolidated financial statements for the six-month period ended 30 June 2022, except for the change in accounting policy related to the presentation of payables from letters of credit as disclosed in Note 42.

3.2 *Cash and cash equivalents*

Cash and cash equivalents comprise cash on hand, cash at banks and short-term, highly liquid investments with an original maturity of not more than three months and investments with maturity of not more than three months since investment date that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value.

3.3 *Inventories*

Inventories are measured at their historical costs. The cost of inventories comprises costs of purchase, costs of conversion (including raw materials, direct labor cost, other directly related cost, manufacturing general overheads allocated based on the normal operating capacity) incurred in bringing the inventories to their present location and condition.

Inventories are stated at the lower of cost incurred in bringing each product to its present location and condition, and net realisable value.

Net realisable value ("NRV") represents the estimated selling price in the ordinary course of business less the estimated costs to complete and the estimated costs necessary to make the sale.

Inventory property

Property acquired or being constructed for sale in the ordinary course of business, rather than to be held for rental or capital appreciation, is held as inventory property and is measured at the lower of cost and NRV.

Cost of inventory property comprise direct cost incurred on the property and overheads allocated to that property, specifically as follows:

- ▶ Freehold, leasehold and development rights for land;
- ▶ Amounts payable/paid to contractors for construction; and
- ▶ Borrowing costs, planning and design costs, costs of site preparation, professional fees for legal services, property transfer taxes, construction overheads and other related costs.

Net realisable value is the estimated selling price in the ordinary course of the business, based on market prices at the reporting date, less costs to complete and the estimated costs to sell.

The cost of inventory property recognised in the interim consolidated income statement on disposal is determined with reference to the specific costs incurred on the property sold and an allocation of any non-specific costs based on reasonable allocation criteria.

Construction inventory

The Company and its subsidiaries use perpetual method to record raw materials and merchandise which are valued at cost of purchase on a weighted average basis.

as at 30 June 2023 and for the six-month period then ended

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.3 Inventories (continued)

Construction inventory (continued)

Work in progress of construction contracts comprises costs of materials, labour costs, construction costs payable to sub-contractors and other related costs which have not been accepted by the investors at the date of the interim consolidated financial statements.

Other inventories

In respect of inventory of stone mining and production activities, the Company and its subsidiaries use perpetual method to record other inventories which are valued as follows:

- | | |
|-------------------------------|--|
| Raw materials and consumables | - cost of purchase on a weighted average basis. |
| Finished goods | - costs of materials and direct labour cost plus related general production cost which are allocated based on the ordinary course of business on a weighted average basis. |

The value of inventories which are materials supplied to the investor of the projects is measured on the specific identification basis, while the value of other inventories is measured on a weighted average basis.

Provision for obsolete inventories

An inventory provision is created for the estimated loss arising due to the impairment of value (through diminution, damage, obsolescence, etc.) of finished goods, and other inventories owned by the Company and its subsidiaries, based on appropriate evidence of impairment available at the interim consolidated balance sheet date.

Increases or decreases to the provision balance are recorded into the cost of goods sold account in the interim consolidated income statement.

3.4 Receivables

Receivables are presented in the interim consolidated financial statements at the carrying amounts due from customers and other debtors, after provision for doubtful debts.

The provision for doubtful debts represents amounts of outstanding receivables at the interim consolidated balance sheet date which are doubtful of being recovered. Increases or decreases to the provision balance are recorded as general and administrative expenses in the interim consolidated income statement. When bad debts are determined as unrecoverable and accountant writes off those bad debts, the differences between the provision for doubtful receivables previously made and historical cost of receivables are included in the interim consolidated income statement.

3.5 Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of a tangible fixed asset comprises its purchase price and any directly attributable costs of bringing the tangible fixed asset to working condition for its intended use.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)
as at 30 June 2023 and for the six-month period then ended

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.5 *Tangible fixed assets* (continued)

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and expenditures for maintenance and repairs are charged to the interim consolidated income statement as incurred.

When tangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the interim consolidated income statement.

3.6 *Leased assets*

The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at inception date and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset and the arrangement conveys a right to use the asset.

A lease is classified as a financial lease whenever the terms of the lease transfer substantially all the risks and rewards of ownership of the asset to the lessee. All other leases are classified as operating leases.

Where the Company and its subsidiaries are the lessors

The net investment under financial lease contracts is included as a receivable in the interim consolidated balance sheet. The interest amounts of the leased payments are recognised in the interim consolidated income statement over the period of the lease contracts to achieve a constant rate of interest on the net investment outstanding.

Assets subject to operating leases are presented as investment properties in the interim consolidated balance sheet. Initial direct costs incurred in negotiating an operating lease are recognised in the interim consolidated income statement as incurred.

Lease income is recognised in the interim consolidated income statement on a straight-line basis over the lease term.

Where the Company and its subsidiaries are the lessees

Rentals under operating leases are charged to the interim consolidated income statement on a straight-line basis over the lease term.

3.7 *Intangible fixed assets*

Intangible fixed assets are stated at cost less accumulated amortisation.

The cost of an intangible fixed asset comprises its purchase price and any directly attributable costs of preparing the intangible fixed asset for its intended use.

Expenditures for additions, improvements are added to the carrying amount of the assets and other expenditures are charged to the interim consolidated income statement as incurred.

When intangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the interim consolidated income statement.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)
as at 30 June 2023 and for the six-month period then ended

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.8 Depreciation and amortisation

Depreciation of tangible fixed assets and amortisation of intangible fixed assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

Buildings and structures	15 - 50 years
Mining exploration rights	15 - 30 years
Machinery and equipment	3 - 15 years
Means of transportation	6 - 10 years
Office equipment	3 - 6 years
Computer software	3 - 5 years
Others	2 - 6 years

3.9 Investment properties

Investment properties are stated at cost including transaction costs less accumulated depreciation.

Subsequent expenditure relating to an investment property that has already been recognised is added to the net book value of the investment property when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing investment property, will flow to the Company and its subsidiaries.

Depreciation of investment properties is calculated on a straight-line basis over the estimated useful life of each asset as follows:

Definite land use rights, buildings and structures	10 - 50 years
Machinery and equipment	7 - 10 years

No amortisation is charged on the land use rights presented as investment properties with indefinite terms.

For long-term lease of investment properties which the Company and its subsidiaries receive rental fee in advance for many periods and rental income is recognised one at the entire rental amount received in advance as presented in Note 3.21, depreciation and amortisation of these investment properties are recognised with entire amount at the point of revenue recognition.

Investment properties are derecognised when either they have been disposed of or when the investment properties are permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the assets is recognised in the interim consolidated income statement in the period of retirement or disposal.

Transfers are made to investment properties when, and only when, there is a change in use, evidenced by ending of owner-occupation, commencement of an operating lease to another party or ending of construction or development. Transfers are made from investment properties when, and only when, there is change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sale. The transfer from investment property to owner-occupied property or inventories does not change the cost or the carrying value of the property for subsequent accounting at the date of change in use.

as at 30 June 2023 and for the six-month period then ended

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.10 Borrowing costs

Borrowing costs consist of interest and other costs that the Company and its subsidiaries incur in connection with the borrowing of funds.

Borrowing costs are recorded as expense during the period in which they are incurred, except to the extent that borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily take a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset.

3.11 Prepaid expenses

Prepaid expenses are reported as short-term or long-term prepaid expenses on the interim consolidated balance sheet and amortised over the period for which the amounts are paid or the period in which economic benefits are generated in relation to these expenses.

Short-term prepaid expenses include selling expenses related to inventory properties not yet handed over and other prepaid expenses that are expected to generate future economic benefit within one ordinary course of business cycle.

Long-term prepaid expenses include tools and supplies, long-term prepaid rental fee and other prepaid expenses that generate future economic benefits for more than one year or one ordinary course of business cycle.

Prepaid land rental

The prepaid land rental represents the remaining unamortised balance of advance payment made in accordance with the lease contract signed with the authorities. Such prepaid rental is recognised as a long-term prepaid expense and is amortised to the interim consolidated income statement over the remaining lease period according to Circular 45/2013/TT-BTC. Besides, prepaid land rental also comprises land lease incurred from business combination, in which, the acquiree is a lessee under operating leases with favourable lease terms compared with the fair value at the date of business combination.

3.12 Business combinations and goodwill

Business combinations are accounted for using the purchase method. The cost of a business combination is measured as the fair value of assets given, equity instruments issued, and liabilities incurred or assumed at the date of exchange plus any costs directly attributable to the business combination. Identifiable assets and liabilities and contingent liabilities assumed in a business combination are measured initially at fair values at the date of business combination.

Where equity instruments are issued by the acquirer as consideration, fair value of the consideration shall be measured at fair value of these instruments at the exchange date. In case the published price at the date of exchange is an unreliable indicator of fair value, the fair value of those instruments could, for example, be estimated by reference to their proportional interest in the fair value of the acquirer or by reference to the proportional interest in the fair value of the acquiree obtained, whichever is the more clearly evidence.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)
as at 30 June 2023 and for the six-month period then ended

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.12 Business combinations and goodwill (continued)

Goodwill acquired in a business combination is initially measured at cost being the excess of the cost the business combination over the Company and its subsidiaries' interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities. If the cost of a business combination is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in the interim consolidated income statement. After initial recognition, goodwill is measured at cost less any accumulated amortisation. Goodwill is amortised over 10-year period on a straight-line basis. The Company and its subsidiaries conduct the periodical review for impairment of goodwill of investment in subsidiaries. If there are indicators of impairment loss incurred is higher than the yearly allocated amount of goodwill on the straight-line basis, the higher amount will be recorded in the interim consolidated income statement.

Business combinations involving entities or businesses under common control

A business combination involving entities under common control is a business combination in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination, and that control is not transitory. An entity can be under common control of an individual or a group of individuals following a contractual agreement.

Business combinations involving entities or businesses under common control are accounted for as follows:

- ▶ The assets and liabilities of the two combined entities are reflected at their carrying amounts on the date of business combination;
- ▶ No goodwill is recognised from the business combination;
- ▶ The interim consolidated income statement reflects the results of the combined entities from the date of the business combination; and
- ▶ Any difference between the consideration paid and the net assets of the acquiree is recorded in equity.

After the date of business combination, if the Company and its subsidiaries transfer and lose control of investment in these entities, the difference between the cost of a business combination and net assets, which was previously recognised in owners' equity, is recognised in the interim consolidated income statement.

3.13 Assets acquisitions and business combinations

The Company and its subsidiaries acquire subsidiaries that own assets and production activities. At the date of acquisition, the Company and its subsidiaries consider whether the acquisition represents the acquisition of a business. The Company and its subsidiaries account for an acquisition as a business combination where an integrated set of activities is acquired in addition to the assets.

When the acquisition of subsidiaries does not represent a business combination, it is accounted for as an acquisition of a group of assets and liabilities. The cost of the acquisition is allocated to the assets and liabilities acquired based upon their relative fair values, and no goodwill or deferred tax is recognised.

In case prior to the date that control is obtained, the investment is an investment in associate or a long-term investment and the acquisition of the subsidiary is not a business combination, when preparing the interim consolidated financial statements, the parent company shall not remeasure the previously held equity interests. Instead, previously held equity interests at carrying value and the consideration were allocated to the assets and liabilities acquired based on their relative fair values on acquisition date.

as at 30 June 2023 and for the six-month period then ended

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.14 Investments

Investments in associates

The Company and its subsidiaries' investment in their associate is accounted for using the equity method of accounting. An associate is an entity in which the Company and its subsidiaries have significant influence that is neither subsidiaries nor joint ventures. The Company and its subsidiaries generally deem they have significant influence if they have over 20% of the voting rights.

Under the equity method, the investment is carried in the interim consolidated balance sheet at cost plus post-acquisition changes in the Company and its subsidiaries' share of net assets of the associates. Goodwill arising on acquisition of the associate is included in the carrying amount of the investment. Goodwill is not amortised and is subject to annual review for impairment. The interim consolidated income statement reflects the share of the post-acquisition results of operation of the associate.

The share of post-acquisition profit/(loss) of the associates is presented on the face of the interim consolidated income statement and its share of post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Dividend/profit sharing received or receivable from associates reduces the carrying amount of the investment.

Gains resulting from contribution of non-monetary assets or sales of asset to associate or joint-ventures are recognised in the interim consolidated income statement only to the extent of unrelated interest in the associate or joint-venture. Unrealised profits related to interest by the Company and its subsidiaries are realised to the interim consolidated income statement according to the progress of asset recovery in the financial statements of these associates or joint-ventures.

The financial statements of the associates are prepared for the same reporting period and use the same accounting policies as the Company and its subsidiaries. Where necessary, adjustments are made to bring the accounting policies in line with those of the Company and its subsidiaries.

The Company and its subsidiaries cease to use the equity method of accounting from the date that the investee is no longer an associate of the Company and its subsidiaries. Upon cessation of the equity method, the Company and its subsidiaries reclassify all amounts previously recognised directly in equity to the interim consolidated income statement in the same manner as when the investee liquidates the related assets and liabilities. The remaining balance of unrealised gains resulting from contribution of non-monetary assets or sale of assets to associates or joint ventures at the time of ceasing application of the equity method is also recognised in the interim consolidated income statement.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.14 Investments (continued)

Held-for-trading securities and investments in other entities

Held-for-trading securities and investments in other entities are stated at their acquisition costs.

Provision for diminution in value of investments

Provision of the investment is made when there are reliable evidence of the diminution in value of those investments at the interim consolidated balance sheet date.

Increases or decreases to the provision balance are recorded as finance expense in the interim consolidated income statement.

Held-to-maturity investments

Held-to-maturity investments are stated at their acquisition costs. After initial recognition, held-to-maturity investments are measured at recoverable amount. Any impairment loss incurred is recognised as finance expense in the interim consolidated income statements and deducted against the value of such investments.

3.15 Payables and accruals

Payables and accruals are recognised for amounts to be paid in the future for goods and services received, whether or not billed to the Company and its subsidiaries. Payables to construction contractors are recognised for amounts certified by the construction work certificate signed with contractors, whether or not billed to the Company and its subsidiaries.

3.16 Provisions

General provisions

Provisions are recognised when the Company and its subsidiaries have a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Company and its subsidiaries expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the interim consolidated income statement net of any reimbursement.

The Company and its subsidiaries assess onerous contracts are those contracts in which, the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfil it. The Company and its subsidiaries recognise and assess obligations under onerous contracts as provisions and these provisions are made for each onerous contract.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)
as at 30 June 2023 and for the six-month period then ended

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.16 Provisions (continued)

General provisions (continued)

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as a finance expense.

Warranty provision for inventory properties

The Company and its subsidiaries estimate provision for warranty expenses based on revenues and available information about the repair of inventory properties sold in the past.

Warranty provision for construction

Warranty provision for construction is estimated at the rate of 1% of the construction cost.

3.17 Foreign currency transactions

Transactions in currencies other than the Company and its subsidiaries' reporting currency of VND are recorded at the actual transaction exchange rates at transaction dates which are determined as follows:

- ▶ Transactions resulting in receivables are recorded at the buying exchange rates of the commercial banks designated for collection;
- ▶ Transactions resulting in liabilities are recorded at the selling exchange rates of the commercial banks designated for payment;
- ▶ Capital contributions or share transfer receivables are recorded at the buying exchange rates of the commercial banks designated for capital contribution; and
- ▶ Payments for assets or expenses without liabilities initially being recognised is recorded at the buying exchange rates of the commercial banks that process these payments.

At the end of the period, monetary balances denominated in foreign currencies are translated at the actual transaction exchange rates at the interim consolidated balance sheet dates which are determined as follows:

- ▶ Monetary assets are translated at buying exchange rate of the commercial bank where the Company and its subsidiaries conduct transactions regularly; and
- ▶ Monetary liabilities are translated at selling exchange rate of the commercial bank where the Company and its subsidiaries conduct transactions regularly.

All foreign exchange differences incurred are taken to the interim consolidated income statement.

as at 30 June 2023 and for the six-month period then ended

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.18 Treasury shares

Own equity instruments which are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss upon purchase, sale, issue or cancellation of the Company's own equity instruments.

3.19 Appropriation of net profits

Net profit after tax (excluding negative goodwill arising from bargain purchases) is available for appropriation to shareholders after approval by shareholders at the General Shareholders' Meeting and after making appropriation to reserve funds in accordance with the Company's Charter, each subsidiary's Charter and Vietnam's regulatory requirements.

The Company and its subsidiaries recognise the distribution of cash dividends when such appropriation is approved by the shareholders at the General Shareholders' Meeting; and recognise the distribution of stock dividends when such appropriation is approved by the shareholders at the General Shareholders' Meeting and authorised State bodies.

The Company and its subsidiaries maintain the reserve funds which are appropriated from the Company and its subsidiaries' net profit after approval by shareholders at the General Shareholders' Meeting.

3.20 Advances from customers purchasing inventory properties

Payments received from customers as deposits for purchasing inventory properties in the future, that do not meet the conditions for revenue recognition, are recognised and presented as "Advances from customers" in the liability section in the interim consolidated balance sheet. Incentives under promotion programs which are, in substance, revenue deductions are offset against account "Advances from customers" which are not qualified to be recognised as revenue for the period.

3.21 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and its subsidiaries and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding trade discount, rebate and sales return. The following specific recognition criteria must also be met before revenue is recognised:

Revenue from sale of inventory properties

Revenue from sale of inventory properties is recognised when the significant risks and rewards incident to ownership of the properties have been passed to the buyer.

Rental income

Periodic rental income

Rental income arising from leased properties is recognised in the interim consolidated income statement on a straight-line basis over the lease terms of ongoing leases.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)
as at 30 June 2023 and for the six-month period then ended

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.21 Revenue recognition (continued)

Rental income (continued)

Rental income recognised one time

For lease of assets which the Group receives rental fee in advance for many periods and the lease periods cover more than 90% of the useful life of the assets, rental income is recognised one time at the entire rental amount received in advance when all these conditions are met:

- ▶ The lessee is not entitled to cancel the lease contract and the Company and its subsidiaries has no obligation to repay the amount received in advance in all cases and in all forms;
- ▶ The amount received in advance from the lease is not less than 90% of the total rental amount expected to be fulfilled under the contract during the lease term and the lessee must pay the entire amount of lease within 12 months from the beginning of the lease;
- ▶ Almost all the risks and benefits associated with ownership of the leased asset are transferred to the lessee; and
- ▶ The Company and its subsidiaries must estimate relatively the full cost of the lease.

Sale of goods

Revenue is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually upon the delivery of the goods.

Rendering of services

Revenue from rendering of services is recognised when the services are rendered for customers.

Income from Business and Investment Co-operation contracts in which the Company and its subsidiaries are entitled to revenue, profit before tax or profit after tax.

Under Business and Investment Co-operation contracts not in the form of jointly controlled asset or jointly controlled operations in which the Company and its subsidiaries contribute capital in cash, distributed income is recognised as finance income in the interim consolidated income statement.

Under Business and Investment Co-operation contracts not in the form of jointly controlled asset or jointly controlled operations in which the Company and its subsidiaries contribute assets, distributed income is recognised as revenue in the interim consolidated income statement.

Interest

Income is recognised as the interest accrues (taking into account the effective yield on the asset) unless collectability is in doubt.

Dividends

Income is recognised when the Company and its subsidiaries' entitlement as an investor to receive the dividend is established.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)
as at 30 June 2023 and for the six-month period then ended

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.21 Revenue recognition (continued)

Income from capital transfer

Income from capital transfer is identified as difference between transfer consideration and cost of capital transfer. This income is recognised on date when the transaction arises being the date when the transfer contract is exercised.

Revenue from goods and services and/or attached goods in multiple elements package

In the transaction in which the Company and its subsidiaries provide multiple products and services to the customer in the same arrangement, the Company and its subsidiaries determine the obligation to sell the product and the obligation to render the services separately and only recognises the revenue when each individual obligation is completed by the Company and its subsidiaries. The contract value is allocated to individual product by taking the total contract value minus the estimated fair value of the service. Payments from customers under contracts corresponding to the unfulfilled obligations are presented as "Advances from customers" or "Unearned revenues" in the interim consolidated balance sheet.

3.22 Cost of inventory properties sold and investment/business cooperation activities relating to real estate projects

Cost of inventory properties sold includes cost of properties transferred during the period and profits are shared to a counterparty under investment/business cooperation contracts by the Company and its subsidiaries relating to real estate projects.

For investment/business cooperation contracts for real estate projects in which the Company and its subsidiaries are the controllers of the project's activities and assets, the profits distributed to the partner according to the periodic settlement are recognized as the cost of goods sold in the interim consolidated income statement. Funds received from counterparties for investment/business cooperation are recognized in the liabilities section of the interim consolidated balance sheet if the Company and its subsidiaries is obliged to repay those capital contributions.

3.23 Construction contract

Where the outcome of a construction contract can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the balance sheet date, as measured by reference to the work performed that has been agreed by customers. Variations in contract work, claims and incentive payments are included to the extent that they have been agreed with the customer.

Where the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred.

3.24 Taxation

Current income tax

Current income tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the interim consolidated balance sheet date.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)
as at 30 June 2023 and for the six-month period then ended

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.24 Taxation (continued)

Current income tax (continued)

Current income tax is charged or credited to the interim consolidated income statement, except when it relates to items recognised directly to equity, in which case the current income tax is also dealt with in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the Company and its subsidiaries to offset current tax assets against current tax liabilities and when the Company and its subsidiaries intend to settle their current tax assets and liabilities on a net basis.

Deferred tax

Deferred tax is provided using the liability method on temporary differences at the interim consolidated balance sheet date between the tax base of assets and liabilities and their carrying amount for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- ▶ where the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the related transaction affects neither the accounting profit nor taxable profit or loss; and
- ▶ in respect of taxable temporary differences associated with investments in subsidiaries, associates, and interests in joint ventures where timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carried forward unused tax credit and unused tax losses, to the extent that it is probable that taxable profit will be available against which deductible temporary differences, carried forward unused tax credit and unused tax losses can be utilised, except:

- ▶ where the deferred tax asset in respect of deductible temporary difference which arises from the initial recognition of an asset or liability which at the time of the related transaction, affects neither the accounting profit nor taxable profit or loss; and
- ▶ in respect of deductible temporarily differences associated with investments in subsidiaries, associates, and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each interim consolidated balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Previously unrecognised deferred tax assets are re-assessed at each interim consolidated balance sheet date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.24 Taxation (continued)

Deferred tax (continued)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled based on tax rates and tax laws that have been enacted at the interim consolidated balance sheet date.

Deferred tax is charged or credited to the interim consolidated income statement, except when it relates to items recognised directly to equity, in which case the deferred tax is also dealt with in the equity account.

Deferred tax assets and liabilities are offset when there is a legally enforceable right for the Company and its subsidiaries to off-set current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on:

- ▶ either the same taxable entity; or
- ▶ when the Company and its subsidiaries intend either to settle current tax liabilities and assets on a net basis or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

3.25 Earnings per share

Basic earnings per share amounts are calculated by dividing net profit/(loss) after tax for the period attributable to ordinary shareholders of the Company (after adjusting for the bonus and welfare fund) by the weighted average number of ordinary shares outstanding during the period.

Diluted earnings per share amounts are calculated by dividing the net profit after tax attributable to ordinary equity holders of the Company (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the period plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

3.26 Segment information

A segment is a component determined separately by the Company and its subsidiaries which is engaged in providing products or related services (business segment) or providing products or services in a particular economic environment (geographical segment), that is subject to risks and returns that are different from those of other segments.

Real estate trading and related services are principal sources of revenue and profit of the Company and its subsidiaries, while revenue from other activities accounts for a minimal portion in the Company and its subsidiaries' total revenue. Therefore, management is of the view that there is only one segment for business. In addition, management defines the Company and subsidiaries' geographical segments to be based on the location of the assets which is in Vietnam.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.27 *Related parties*

Parties are considered to be related parties of the Company and its subsidiaries if one party has the ability to, directly or indirectly, control the other party or exercise significant influence over the other party in making financial and operating decisions, or when the Company and its subsidiaries and other party are under common control or under common significant influence. Related parties can be enterprise or individual, including close members of their families.

3.28 *Demerger*

Demerger transactions where the Company is the demerged company are carried out as follows:

- ▶ Assets, liabilities transferred to the new company is deducted from the respective items in the consolidated balance sheet by the carrying value at the date of demerger;
- ▶ Difference between assets and liabilities transferred to the new company is deducted from equity in the consolidated balance sheet; and
- ▶ No gain or loss is recognised for the demerger transaction.

3.29 *Bond issuance transaction cost*

Transaction costs relating to bond issuance are charged to the interim consolidated income statement on a straight-line basis over the term of the bond. At initial recognition, these transaction costs are deducted from liability component of the bond.

4. SIGNIFICANT ACQUISITIONS AND DISPOSALS DURING THE PERIOD

4.1 *Acquisition of group of assets*

During the six-month period ended at 30 June 2023, the Company and its subsidiaries acquired shares of the following companies from counterparties. Management has reviewed and assessed that the acquisition of these companies are acquisition of group of assets and liabilities, rather than business combination. The total consideration for each transaction was allocated to the assets and liabilities acquired based on their relative fair values at the acquisition date. Accordingly, a part of the consideration was recognized in construction in progress. The non-controlling interests were also recognized at their relative proportion of the interests in the assets and liabilities acquired. These acquired assets and liabilities are presented in the same categories as other similar assets and liabilities held by Company and its subsidiaries.

36. CORPORATE INCOME TAX

The current corporate income tax ("CIT") rate applicable to the Company and its subsidiaries is 20% of taxable profits (prior period: 20%).

The tax returns filed by the Company and its subsidiaries are subject to examination by the tax authorities. As the application of tax laws and regulations is susceptible to varying interpretations, the amounts reported in the interim consolidated financial statements could be changed at a later date upon final determination by the tax authorities.

36. CORPORATE INCOME TAX (continued)

36.4 Unrecognised deferred tax

Tax losses carried forward

The Company and its subsidiaries are entitled to carry tax loss forward to offset against taxable income arising within five years subsequent to the year in which the loss was incurred. At the interim consolidated balance sheet date, the Company and its subsidiaries have aggregated accumulated tax losses of VND1,970 billion (31 December 2022: VND3,204 billion) available for offset against future taxable income.

No deferred tax assets have been recognised in respect of these accumulated tax losses because future taxable income cannot be ascertained at this stage.

Non-deductible interest expense

Non-deductible interest expense under Decree 132/2020/ND-CP shall be carried forward to the next tax period when determining total deductible interest expense in case the total interest expense deducted for the next tax period is lower than the level prescribed in this Decree within five years subsequent to the year in which the aforementioned non-deductible interest was incurred. The deferred tax assets have not been recognised in respect of this non-deductible interest expense because future taxable profits and the conditions to deduct in subsequent tax periods cannot be ascertained at this stage.
